2 MODULE ENCLOSURE

FOR M36 DIN-RAIL BUILDING BLOCK METHOD

SERIES
35
mm

Wall mounting feet available

With the advantage of the building block method you can flexibly build your own DIN-rail enclosures with the option of printed circuit boards with terminals on two board levels.

The possibility of mixing single and double covers with different openings for connectors and with and without ventilation gives not only very wide options of connections, but also design wise it offers virtual custom specific enclosure/designs. Due to designed covers it is possible to add different and individual features to the design.
